Fact Sheet

Amber Road
POWERING GLOBAL TRADE®

Founded in 1990, Amber Road provides a single, on-demand platform that automates and streamlines global trade. As a leading provider of cloud based global trade management (GTM) solutions, we automate the global supply chain across sourcing, logistics, cross-border trade, and regulatory compliance activities to dramatically improve operating efficiencies and financial performance.

Solutions

Our solution combines enterprise-class software, trade content sourced from government agencies and transportation providers in over 160 countries, and a global supply chain network connecting our customers with their trading partners, including suppliers, testing/auditing firms, freight forwarders, customs brokers and transportation carriers.

Many of the largest, most successful companies in the world are using Amber Road to:

- Collaborate with suppliers on development, sourcing and quality assurance
- Execute import and export compliance checks and generate international shipping documentation
- Book international carriers and track goods as they move around the world
- Minimize the associated duties through preferential trade agreements and foreign trade zones

Our solution capabilities include:

Global Sourcing
Global sourcing provides for planning with suppliers earlier in the product lifecycle to reduce development time, lower sourcing risks, improve product quality and accelerate time-to-market.

Risk & Quality Management
The modules provide the ability to accurately determine and monitor that all trading partners are in compliance with ethical sourcing standards, and your products meet the regulatory safety and quality standards for each country where you sell.

Production Management
Our solution provides global organizations the ability to better leverage enterprise data for improved decision-making related to component and material development, product commercialization, and production milestones.

Transportation Management
Our solution provides a range of transportation management capabilities, including contract and rate management, carrier selection and booking, and comprehensive freight audit.

Supply Chain Visibility
Through multi-mode shipment visibility functionality, importers and exporters are connected with their overseas suppliers, logistics providers, brokers, and carriers to ensure complete tracking and monitoring of the movement of goods.

Export Management
Our solution automates necessary export compliance checks and transactional functions including performing country-specific regulatory checks, screening for restricted parties, determining license requirements and tracking license usage, generating documents and filing.

Import Management
Our import solution performs vital compliance, import control and business rules validations throughout the purchase order lifecycle, including product classification, admissibility review at multiple stages, Customs entry management, security filings and broker integration.

Duty Management
Our solution helps companies to simplify, automate and qualify for duty minimization programs, such as Free Trade Agreements, Free Trade Zones (FTZ), and China's General and Processing Trade programs.

Global Knowledge®
The functional areas of the Amber Road platform are integrated with trade content to provide the highest levels of automation and accuracy. We cover over 160 countries today with comprehensive coverage of harmonized tariff schedules, standard and preferential duty rates, regulatory controls, restricted party lists, documents, quotas and much more.

Our Customers

Amber Road's enterprise-class SaaS solutions are designed to meet the extensive requirements of global companies, third-party logistics providers (3PLs), and small and medium-sized importers and exports.

With a long and proven track record, we are powering the global operations of many of the most successful companies in the world, spanning nearly every industry and region.

"To manage compliance in a rapidly changing global supply chain requires a tool that can help deploy policy and facilitate training, auditing, and remediation for a large number of business partners. Amber Road helps us to all of this with limited resources."

Project Director, Global Ethics & Compliance
DICK's Sporting Goods

"We've simplified our shipment process, automated documentation and trade party screening, and gained regulatory and financial control over our international shipments. Currently 90% of all of Fairchild's shipments are pre-cleared."

Senior Manager, Global Logistics
Fairchild Semiconductor

"Once you can see the shipments moving in transit, you can predict any late shipments and adjust. NCR will see a seven-figure benefit from the implementation; it has added definite value for us."
