

Overview

Founded in 1990, Amber Road is a leading provider of cloud-based global trade management (GTM) software, trade content and training, we help companies all over the world create value through their global supply chain by improving margins, achieving greater agility and lowering risk. We do this by creating a digital model of the global supply chain that enables collaboration between buyers, sellers and logistics companies.

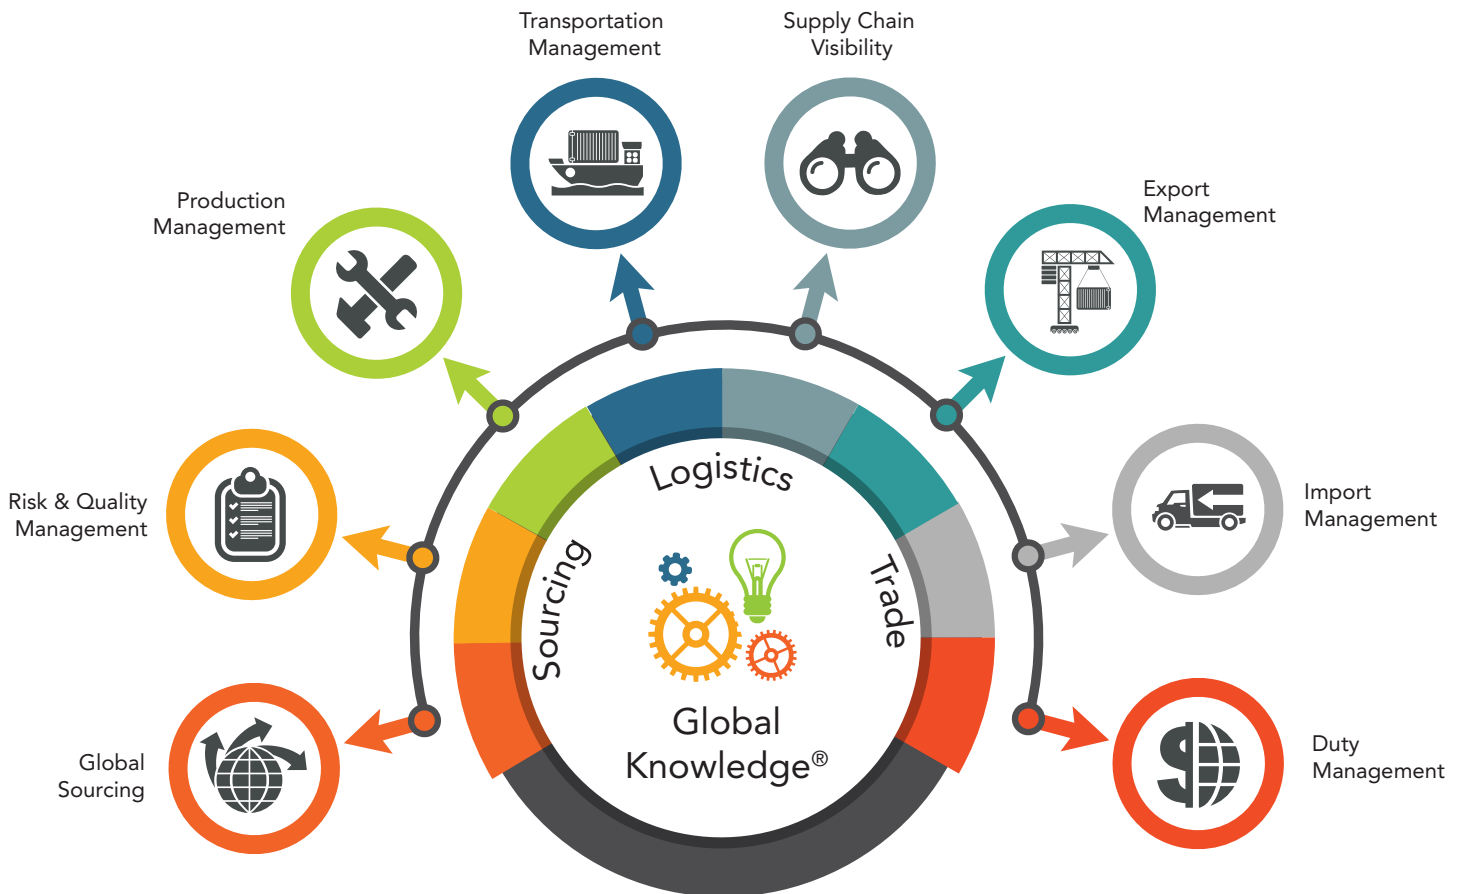

Cloud-Based Global Trade Management Platform

Our platform combines enterprise-class software, trade content sourced from government agencies and transportation providers in over 160 countries, and a global supply chain network connecting our customers with their trading partners, including suppliers, testing/auditing firms, freight forwarders, customs brokers and transportation carriers.

Many of the largest, most successful companies in the world are using Amber Road to:

- Collaborate with suppliers on sourcing, risk and quality assurance, and factory production
- Execute import and export compliance checks and generate international shipping documentation
- Book international carriers and track goods as they move around the world
- Minimize the associated duties through preferential trade agreements and foreign trade zones

Our platform is broad and deep with supply chain execution functionality in these areas:

Customers of All Sizes in All Verticals

We have solutions for any company moving goods across borders anywhere in the world. The more volume, the more products, the more countries, the more complexity, the more value our software delivers.

"We needed a truly global integrated import/export trade compliance solution to support our high volume transactions. We have rolled the solution out worldwide and are processing millions of transactions per year and have interfaces with multiple ERP systems and 1,300 users in 42 countries."

Director, Global Trade & Security
Agilent Technologies

"We chose Amber Road for the flexibility and customizability of its web-based solution. Its architecture platform allows us to easily integrate additional modules of Amber Road's suite."

VP, Supply Chain Planning & Operations
Caleres

"To manage compliance in a rapidly changing global supply chain requires a tool that can help deploy policy and facilitate training, auditing, and remediation for a large number of business partners. Amber Road helps us do all of this with limited resources."

Project Director, Global Ethics & Compliance
DICK's Sporting Goods

"Transportation Management empowers our sales and pricing organization to respond faster than the competition, with differentiated proposals that help our customers make important cost service trade-off decisions."

Maritime Manager
SDV International Logistics

"Once you can see the shipments moving in transit, you can predict any late shipments and adjust. NCR will see a seven-figure benefit from the implementation; it has added definite value for us."

Director, Global Logistics Sourcing
NCR

GLOBAL SOURCING

Enables planning with suppliers earlier in the product lifecycle to reduce development time, lower sourcing risks, improve product quality and accelerate time-to-market.

RISK & QUALITY MANAGEMENT

Provides brand manufacturers and retailers the ability to accurately determine that all trading partners and products are in compliance with regulatory requirements and standards defined for product safety and quality that reflect the importance of the brand.

PRODUCTION MANAGEMENT

Establishes visibility into outsourced production and improves factory compliance to increase supply certainty and enable advanced product flow directly from source to end-customer.

TRANSPORTATION MANAGEMENT

Provides a range of transportation management and logistics capabilities including contract and rate management, carrier selection and booking, and comprehensive freight audit.

SUPPLY CHAIN VISIBILITY

Provides multi-mode supply chain visibility functionality that connects importers and exporters with their overseas suppliers, logistics providers,

brokers, and carriers via an integrated service provider network, to ensure complete tracking and monitoring of the movement of goods.

EXPORT MANAGEMENT

Automates export processes to reduce export compliance risks and improve export efficiencies.

IMPORT MANAGEMENT

Performs vital compliance, import control and business rules validations throughout the purchase order lifecycle, including product classification, and admissibility review at multiple stages.

DUTY MANAGEMENT

Helps companies to simplify, automate and qualify for duty minimization programs, such as Free Trade Agreements, Foreign-Trade Zones (FTZ), and China's General and Processing Trade programs.

GLOBAL KNOWLEDGE®

Integrated trade content providing the highest levels of automation and accuracy powers all of our solutions. Gathered, translated, and interpreted by in-house specialists, our content covers over 600 countries today with comprehensive coverage of harmonized tariff schedules, standard and preferential duty rates, regulatory controls, restricted party lists, documents, quotas and much more.
